

# The Nixon Medical Invoicing Advantage

## Predictable, No-Surprise Billing for Outpatient Centers

At Nixon Medical, we make budgeting easy with **Flat Rate Billing**, where you only pay for the linens and apparel at your facility.

Other vendors use Circulating Inventory Billing, where you're billed for both the inventory at your facility and what's still being laundered—driving up costs.

Learn the difference to choose a vendor with the best billing solution for your needs.

## Flat Rate Billing vs. Circulating Inventory Billing

### Flat Rate Billing (Nixon Medical)

- You only pay for the inventory we leave at your facility—no inflated costs.
- Deliveries are staggered throughout the week to match patient volume.

### Circulating Inventory Billing (Other Vendors)

- You're billed for both the inventory at your facility and the inventory still being laundered—driving up costs.
- Unpredictable patient volume and fluctuating invoices can leave you understocked and overpaying.

## Beyond Billing: More Ways Our Invoicing Advantage Works for You

**Free product deliveries**—for special procedures or unexpected surges.

**No minimum par-level requirements**—you only pay for what you need.

**No hidden fees**—your invoice always matches your agreement.

**Loss-Damage Protection**—we anticipate normal wear and loss, so you're never charged extra.

**Expert inventory management**—avoid overpaying for unnecessary excess.

**More time for patient care**—without invoice or product confusion.
